DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-13, 16 and 17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The newly amended claims are unclear with respect to the recitation that the wiring layers are arranged such that they do not transmit a signal to another element that is arranged in the same horizontal plane. This limitation is not seen in the embodiments shown in FIGS. 2 and 4, where it appears that metal layer M2 would transmit a signal between the gates of adjacent elements.

It is not clear which of applicant's embodiments show this new claim limitation.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-13, 16 and 17 are further rejected, insofar as understood, under 35 U.S.C. 102(e) as being anticipated by Yamazaki et al, of record, for the reasons given in the previous office actions, hereby

incorporated by reference. Absent a clarification of the claim language, it would appear that the Yamazaki reference meets the claimed structural elements.
